PREFACE.

The City Directory deals with the growth of the City as nothing else can, and its value as an indicator of the condition of the City is great as it is utilized by business men and others. That Newark is rapidly taking rank as one of the first cities of the United States cannot be doubted, and with more effort to make it known as Newark, it would soon be classed with New York, Chicago, Boston, etc. In 1900 the United States Census placed the population at 246,070. Our estimate for the present year is 320,015. This figure is arrived at by taking the total number of individual names in the Directory and using 3½ as a multiple.

The total number of individual names in the book this year is 91,433, against 88,339 in 1902, an increase of 3,094. There are besides 2,244 firms and companies, 687 lodges, societies, etc., 99 schools and colleges, 40 institutions, and 29 public buildings.

It will be interesting to know in what part of the city the growth is greatest, and it is gratifying to show that the increase is largely in the most desirable parts, as will be noted by the following comparisons. The number of names taken for the Directory in Roseville avenue in 1902 was 268, in 1903, 357; N 7th street, 422, 489; N 6th street, 309, 392; Littleton avenue, 423, 503; Fairmount avenue, 465, 624; S 7th street, 475, 637; S 8th street, 260, 325. The largest gain in any street is in Hunterdon street, where 600 names were taken in 1902 and 1093 in 1903. S 10th street is a close second with 592 names in 1902 and 983 in 1903.

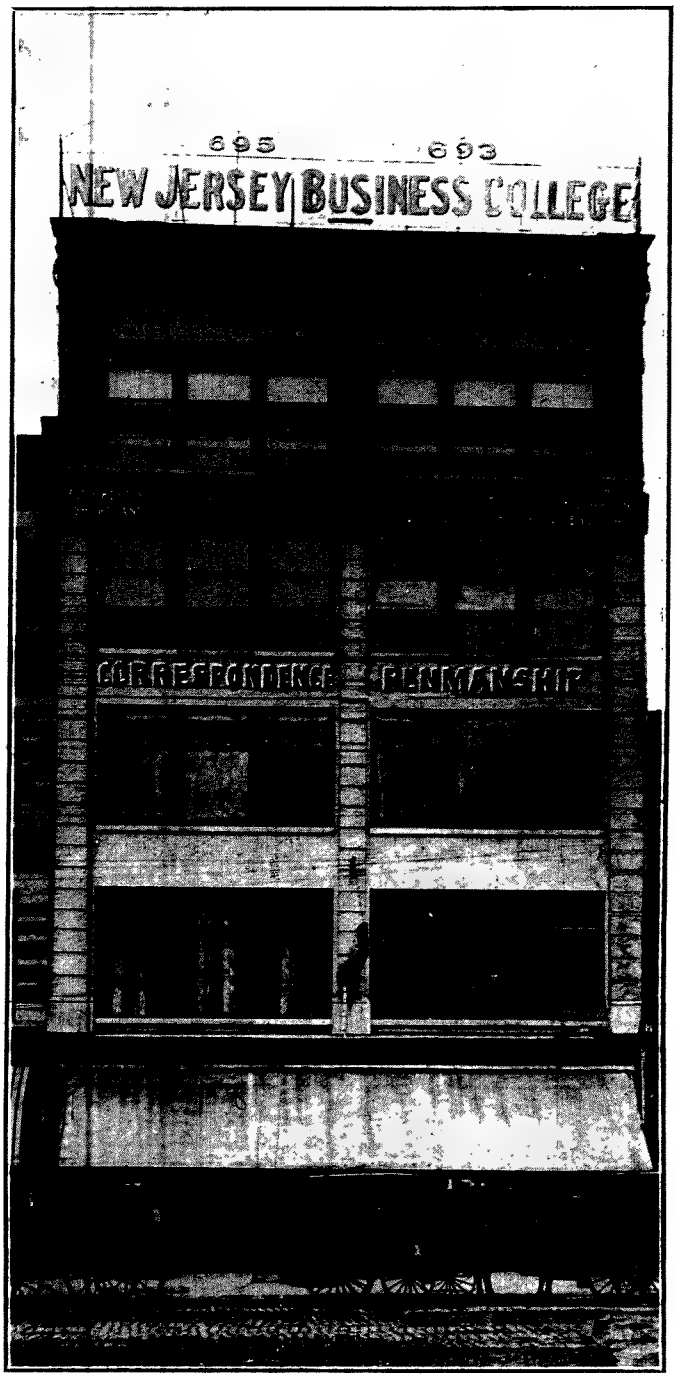
A MODERN BUSINESS TRAINING SCHOOL



For Both Sexes

The business world to-day demands special training. For the untrained or half trained it has no use.

The best training you can have at the outset of a business career is a skilled knowledge of Bookkeeping, Business Arithmetic, Penmanship, Shorthand and Typewriting. The ability to write a good hand and construct a sensible business letter, are among the first requisities in business to-day.

Adhering to these principles it is no less vital that a young man or young woman should select a school of special training bearing an old and well established name; one having a strong and select teaching force; one whose graduates are sought by leading firms.

Our thirty-first annual catalogue will tell you about such a school.

ADVANTAGES OF OUR SYSTEM

Perpetual

Dispenses with the annual transfer of ledgers. Once opened no further extra labor of the bookkeeper is required.

All Items of an Account

Are kept together, no matter what length of time the account covers, or how active it may be.

Live Accounts Only

Are retained in the Current Ledger. All filled leaves and closed accounts are filed in Transfer Ledger.

Quick Reference

The index being distributed through the book admits of locating the accounts much more rapidly. No separate index necessary.

Saves Time Posting and Balancing

As only open accounts are dealt with, and these are all properly arranged and their position is always the same.

Arrangement of Accounts

Can be had as to locality, by states or salesman's territory, in alphabetical order, as to time of opening, or activity.

No Spacing Necessary

Each account is given a separate leaf. Active accounts can therefore have unlimited space.

Less Liability for Error

Accounts are more surely located, and with one account on each leaf the proper space is readily found.

Expansive

It admits of insertion of new accounts from time to time in proper place without disturbing any other.

Easily Handled

As both sides of the leaf are used for each account, a much smaller sized book can be used.

Facility

One or a dozen persons can work on the books at one time in taking off statements or posting or balancing.

Convenience

Of having a customer's account all together, saving time of bookkeeper looking through a lot of old ledgers.

Simplicity

A trial balance is more readily taken off. Tabulation or abstract is simplified and systematized.

Adaptability

Any business of any size, or any sudden change in activity, as well as any arrangement necessary, can be accommodated.

Economy

In every case it costs far less in the long run — less in material, less in time, less in labor.

SPECIAL LOOSE LEAF SYSTEMS

For the Purchasing Department

Requisition Order Systems in Manifold, Quotation Record, Cost Book, Purchase Record, Stock Report, Perpetual Invoice Filing System.

By the use of a number of these systems in combination, we not only accomplish what you now secure with your present methods, but in addition we give you an absolute check and instant reference as to goods ordered, en route and received; instant and accurate information as to the amounts owing; absolute certainty that accounts are correct, as you work with the O. K.'d invoice itself, and not with figures three or four times transferred from the original invoices; the assembling of all invoices for any one firm in one place; an absolutely flexible system that will work just as well with 50 as 5,000 accounts, which will save 25 to 50 per cent. of the amount of work done at present.

For the Sales Department

We can create an Order System, suitable to any business, whereby the original order can be used for filling, shipping, billing and charging the order, and thereby eliminate all journalizing of sales.
